About Me

I am Galardo, a meticulous, communicative, and creative student with good problem-solving skills. I have created more than 20 simple projects, including web development, data analysis, and system design using more than 10 tools.

Education

2020 - 2023 | Saint Joseph High School, Denpasar.

2023 - 2027 | BINUS University

Achievements

1. Completing UKM Bina Nusantara Computer Club training in the Front-End division.
2. Passed the selection as a candidate for System Analyst AMJS 2026 (Internship Program) organized by Bina Nusantara University.

Skills

SQL | Tableau | Power BI | Visual Paradigm | Figma | Python | Java | HTML | CSS | Javascript

Projects

1. Analyzing, visualizing, and providing insights, as well as suggestions from sales trends, disease, delivery performances, and Earth's temperature data using pandas, Microsoft SQL, and Tableau libraries.
2. Designing the system flow from use case, class diagram, and database management in the form of an ERD using Visual Paradigm, up to the prototype using Figma.
3. Creating a responsive Personal Website, Sudoku Solver, Flappy bird, Calculator, etc, using HTML, CSS, and Javascript.
4. Creating a GUI cashier management system integrated with database and a GUI simple artificial intelligence capable to predicting property prices using NumPy and Tkinter libraries in Python.

Organization

1. May 2025 - July 2025 | Becoming an IT volunteer who develops a simple website for supporting MSME products.
2. September 2024 - November 2024 | Becoming a security staff responsible for ensuring the event runs smoothly at the Bestari event organized by Himpreneur BINUS Malang.
3. November 2024 - December 2024 | Becoming a committee member of the tree planting event organized by Teach For Indonesia BINUS Malang, responsible for supervising the tree planting volunteers.
4. September 2024 | Becoming a mural volunteer at Ampeldento 1 Elementary School, Malang, organized by Teach For Indonesia BINUS Malang.
